

During today's STEM Pro Live!, you'll hear from four employees of APS, a local electric company. Under each engineer's name, write down three facts you hear about that person in the boxes provided below. Then, think of a question or two you would like to ask that person!

Remember, you can ask your questions at any time, though the STEM professionals will answer them at the end of the webcast. Thanks again for joining us today!

The diagram features four utility towers at the top, each connected to a box containing an employee's name and title. Below each employee box are three numbered boxes for facts and one larger box for a question. Lines connect the fact boxes to the question box.

Employee Name	Employee Title	Fact 1	Fact 2	Fact 3	Question
Kristie Cocco	Regulatory Compliance Manager	1.	3.	2.	Question:
Garry Lenig	Technical Services and Programs Engineer	2.	1.	3.	Question:
Daniel Laughton	Section Leader, Transmission Operations Engineering	1.	3.	2.	Question:
Jason Spitzkoff	Section Leader, Transmission Planning Engineering	1.	2.	3.	Question:
